Ahmedabad, Gujrat

PROFILE

Aspiring MERN Stack Developer eager to initiate a career in crafting sleek web solutions. Proficient in MongoDB, Express.js, React, and Node.js, I'm passionate about building intuitive user experiences.

EDUCATION

persuing BE degree in IT field at **L.D. College of Engineering**
(8.30 CGPA & 8.69 CPI current)

SKILLS

- **Frontend:** Html, Css, Js, Bootstarp, Tailwind Css, React JS
- **Backend:** Node JS, Express JS
- **Database:** Mongo DB
- **Version Control:** Git & Github
- **Developer Tools:** VS Code, Postman
- Efficient communication & group work ability

PROJECTS

1) Mern Blog Webapp

Developed a full-stack MERN (MongoDB, Express.js, React.js, Node.js) blog application with user authentication, enabling users to create, update, and delete blog posts. Implemented features for liking, disliking, and saving posts, fostering an interactive and engaging user experience.

2) React IMDB Movie app(API Based)

"Crafted a dynamic React.js project leveraging a movie API to fetch and display movie information. Enabled users to browse, search, and delve deeper into individual movies for detailed information. Implemented intuitive user interfaces to enhance navigation and interaction, resulting in an immersive movie exploration experience.
